

Compact kitchen. A new fridge is coming Friday and we need to get a microwave. Bottom draw is a dishwasher. The weird black things are going!

Damage on the edge of the carpet. We are thinking of extending the tiles by half a tile to the edge of the door frame and covering the other slight damage near the table with a mat.

We need to get a small table – probably square or rectangular 4-seater with two seats here and two on the balcony (stackable quality looking plastic) The carpet colour in the kitchen photo is more accurate.

Small balcony. The large one below is another unit but they appear to be infrequently used.

S

Bathroom is in good condition.

We'll put some shelves and/or a lockable cupboard for cleaning and replenishing supplies above the washer / dryer.

We're waiting on a bed head which has side tables included in it. We'll put in better linen. Good sized wardrobe and will have high speed internet once it is connected.
